THE QUESTIONS WE WANT OUR DATABASE MANAGEMENT SYSTEM TO ANSWER:

- What employee is assigned to assist customer John Smith?
- What is the amount of money the customer has borrowed from the bank?
- How much of the loan has been payed?
- On what date was the last payment of the loan and how much was it?
- What is the balance in a specific customer's account?
- What type of account does the customer hold?
- In which branch was the account opened?
- What is the customer id of a customer given the name?
- To what address do we send the bank statement?
- When does the customer's credit card expire?
- What is the maximum limit of the credit card issued to the customer?
- In which branch was the loan taken?
- What is the card number linked with a customer's account?
